

Classroom News

Class Name: Arundel

Term: Term 6 2023-2024

What we have been learning this term:

It has been a very busy and productive end to the academic year in Arundel class this term.

All students have enjoyed returning to Smelly Wellies, meeting the new additions to the farm and spending time with the animals they already know.

In cooking, Arundel class have whipped up lots of sweet and savoury treats; from Welsh cakes to cheese scones, all the baked goods have gone down a treat!

One of the main topics in science has been reproduction this term, specifically in plants. Students had the opportunity to dissect flowers from the school garden, identifying and labelling the different parts of the flowers.

In class, students have been playing lots of boardgames with each other, bringing out their competitive streaks!

Arundel class have explored area and perimeter in Maths with more accuracy. Students have also looked at fractions; identifying and comparing equivalents.

Students have been choosing from several different options tailored to their passions and interests. They have produced amazing boardgames, posters and PowerPoints.

Arundel have begun to explore World of Work; they have looked at a range of occupations, identifying the differences between them.

We are so proud of everything our students have achieved this year and have enjoyed watching them grow in confidence.

We can't wait to see all students back at school in September and hope you all have a restful summer.

Arundel Team

Sam, Emily, Michelle, Kelly, Katie 😊
